RE: Dave Beson Seminars

Dear Sirs,

It has been my sincere pleasure to know Dave Beson personally and professionally for the past 6 years. His track record with regards to speaking nationally, motivating large groups and instructing is impeccable. I have been most impressed with Dave's cutting edge seminars that always seem to focus on the newest technologies and techniques. I have seen him speak to many large groups of real estate professionals and I have always been impressed with his ability to draw the "standing room only" crowds.

Dave's most recent seminars have focused on "New Ways to Profit" and they continue to educate and motivate thousands of Brokers and Agents with ways to enhance their business and stay ahead of the technology curve. As we all know, today's Realtors need to continually re-invent themselves to gain listing and sell more homes and Dave Beson Seminars have been a huge motivator and educator.

I look forward to working even more closely with Dave in the upcoming years and I appreciate all of his support of the eNeighborhoods productivity products. I highly recommend Dave Beson Seminars as an extremely valuable service to the Real Estate community and to companies looking to keep their agents on the cutting edge of technology.

All my best,

David M. Amaro
President
